## RUSSIA MASSES 500,000 SOLDIERS

Large Army Gathers Behind Polish Fortresses.

### REPORTS ARE CONFLICTING

While the General European Situation seems to be more peacefully inclined continued reports of mobilization create some uneasiness. Germany and England co-operating amicably in favor of peace.

Vienna, Dec. 3.—According to the Reichspost, Russia has concentrated half a million troops behind the girdle of the Polish fortresses. All the Polish regiments have been sent either to the interior or the Caucasus. The paper adds that more than 100 Russian spies have been arrested in Galicia.

London, Dec. 3.—The imperial German chancellor's statement on the European situation, together with that of Herr von Kiderlen-Waechter, the German foreign secretary, confirming that Great Britain and Germany are co-operating amicably in favor of peace, is regarded in the European capitals as reassuring and as calculated to have an effect when the peace delegates come to discuss terms.

Dr. von Bethmann-Holweg's declaration of the solidarity of the triple alliance, which, it is reported, has just been renewed for another term of years, and his announcement of Germany's determination to pursue a policy upholding Turkey in an economic sense, is likely to influence the delegates of all the countries concerned to discuss peace conditions in the spirit of moderation already shown at the armistice negotiations.

Although there is no change in the actual situation some misgiving is beginning to be expressed with regard to the attitude of Greece. Various rumors are assigned for Greek reluctance to sign the armistice. According to the Greek minister at Paris, Greece opposes the proposal that the besieged garrisons shall be provided during the armistice and thinks that the allies ought to have insisted upon their surrender.

There is no doubt that jealousy exists between Greece and Bulgaria. Greece asserts that the Greek fleet played an important role in the war, and especially in preventing Turkey from moving her troops by sea, and that without her naval assistance the allies could not have achieved such a brilliant success.

The race between the Greeks and the Bulgarians for the occupation of Salonika and the incidents which followed this increased the ill feeling and now the Greeks consider that their interests are being sacrificed in the peace negotiations.

**FORMING THREE ARMIES**  
Austria Said to Be Actively Preparing for War.

London, Dec. 3.—The Belgrade correspondent of the Chronicle gives an outline of the Austrian war plans and says: "Austria is forming three armies, one directed against Russia and one against Serbia. The first, or northern army, to defend Galicia, is being concentrated in the fortified triangle formed by Cracow, Tomaszow and Zempel. Around Lemberg and along the frontier entrenchments are being dug and the vast plain covered with entanglements to check the possible advance of Russian cavalry. The second, or eastern army, is being formed in Transylvania and Bukovina along the Russian frontier. The third, or southern army, will operate partly from the south of Hungary against Belgrade and Semendria, force a passage over the Danube to Moravia valley, and partly from Austria and Herzegovina against the Serbian frontier and the San-of-Novipazar."

**WEEKS DELAY ARMISTICE**  
Peace Negotiations May Take Place in London.

Constantinople, Dec. 3.—The armistice has not yet been signed. The plenipotentiary is still waiting instructions from his government. It is believed in Constantinople that the peace negotiations will take place in neutral territory. According to information in official circles the ambassadorial conference will be held in London, the original proposal having emanated from London.

**WILSON GIVES FIRST AID**  
Cures a Honeymoon Couple Who Fall From Their Bicycles.

Hamilton, Bermuda, Dec. 3.—President Wilson was a principal in the first aid case. He rescued a honeymoon couple who fell from their bicycles in front of his house. The wife was slightly injured and one of Wilson's daughters assisted in tending her wounds.

### PAID MONEY TO KILL BILL

Harvester Trust Fought South Dakota Prison Measure.

St. Louis, Dec. 3.—That as agent for the International Harvester company he spent \$300 or \$500 in 1903 to kill a bill pending in the South Dakota legislature, which would have authorized the manufacture of binding twine in the state penitentiary, was testified by Michael H. Lamb of Mission, Tex., at the opening session of the St. Louis hearing in the government's suit to dissolve the International Harvester company.

Testimony was taken before Special Examiner Robert Taylor of Duluth. Lamb, who was formerly a general agent of the McCormick Harvester company and later of the International, testified that when the bill came up he consulted John H. Bowler, former warden of the penitentiary, and being told it would take money to defeat the bill, so wrote to Henry L. Daniels, general manager of the International.

"A few days later I received a package of new \$20 bills, with instructions to turn the money over to Bowler," Lamb declared.

### OROZCO IN THE FIELD AGAIN

Mexican Revolutionist Has Cash and New Equipment.

El Paso, Tex., Dec. 3.—His health so improved that he is able to take the field again General Pascual Orozco, Jr., with his troops, is moving in a westerly direction from Coyame, below Presidio, Tex.

Ranchmen arriving here report that the leader of the Mexican revolution in the north has all new equipment for his 400 followers, ample ammunition and seemingly plentiful funds with which he is paying for all supplies secured from ranches on his route. The presence of Orozco in the field is verified by advices received by the Mexican secret service.

**KILL 9,000 DEER IN WISCONSIN.**  
Madison, Wis., Dec. 3.—The state game warden's department announced that about 4,500 deer have been offered for transportation in the season just closed and it is estimated that about twice that number have been killed in Wisconsin.

**New High Price for Steers.**  
Chicago, Dec. 3.—The highest price ever paid for steers in the open market was reached when ten Angus yearlings were bought in at \$12 for the Eastern trade. The highest previous price was \$11.05 paid on Oct. 23.

### FATAL FIRE AT NEW YORK

At Least Two Persons Perish in Apartment House.

New York, Dec. 3.—Two persons lost their lives in an apartment house fire on upper Fifth avenue and five other persons are missing.

The building is a six-story structure occupied by many families. The fire smoldered for half an hour on the top floor before discovered and when the firemen arrived the lives of so many were in jeopardy that life nets were spread and scaling ladders used to effect rescues.

**Stimson Back From Canal Zone.**  
Washington, Dec. 3.—Secretary of War Stimson has returned from a six-day stay in the Panama canal zone, whither he went to familiarize himself with the problem of the military defense of the canal. His views on this question will be presented soon in his annual report.

### MISS MAY SUTTON.

Former Tennis Champion Will Be Bride Dec. 11.

### TENNIS STARS TO BE MARRIED

Thomas Bundy and Miss May Sutton to Wed on Dec. 11.

Los Angeles, Dec. 3.—Thomas Clark Bundy, joint holder with Maurice E. McLoughlin of the national championship in tennis doubles, and Miss May Sutton, former world's champion in women's singles, will be married here Dec. 11. Announcement of the event was made by Mr. Bundy.

### DOMESTIC TROUBLES RESULT IN TRAGEDY

Maine Woman Drowns Two Children and Herself.

Rockland, Me., Dec. 3.—Mrs. Austin Elwell killed her two children and herself, according to the belief expressed by the police, by jumping with them into an abandoned limestone quarry 400 feet deep and nearly filled with water. Family trouble is believed to have caused the act. Mrs. Elwell was twenty-three years old and the children, both boys, were aged five and four years.

There were no witnesses to the tragedy. The woman and the children were seen going into the quarry inclosure. Later their outer garments were found on the edge of the cliff. The children's clothing was neatly folded.

It is thought that the woman, taking the boys by the hand, stood on the edge of the quarry and then jumped, dragging the children to death with her.

Mrs. Elwell, friends said, had separated from her husband a year ago.

### UNIFORM PRICE LAW VALID

South Dakota Wins Case in Federal Supreme Court.

Washington, Dec. 3.—The supreme court, in an opinion by Associate Justice Holmes, upheld the validity of a statute of South Dakota which makes it unlawful for any person, corporation or other dealer in a commodity in general use to sell such a commodity at a lower price in one locality, making due allowance for difference in cost of transportation and distribution, than in another locality.

The case was brought to the supreme court by the Central Lumber company, a corporation which was proceeded against in one of the local courts of South Dakota for violating the statute. The lumber company demurred to the complaint, brought against it on the ground that the law violated the federal constitution. The case was carried to the supreme court of South Dakota, which upheld the validity of the law, and the lumber company appealed to the supreme court of the United States.

### SEES NO MONEY STRINGENCY

MacVeagh Thinks Banks Don't Need Government Aid.

Washington, Dec. 3.—Secretary MacVeagh of the treasury department declared his opinion that no emergency existed in the money market at this time justifying the intervention of the government with deposits of surplus federal funds in the national banks.

With the rate on call money soaring from 10 to 20 per cent during the last few days there have been rumors in Wall street that the secretary might deposit \$25,000,000 or more to replenish the supply.

Mr. MacVeagh attributed the high rates to several temporary factors and said that apparently all transactions were being met. If necessity arose, he added, the government would come to the rescue.

## MESSAGE DAY LOSES INTEREST

Advance Distribution Robs Occasion of Old Significance.

### PURELY ACADEMIC THIS YEAR.

Impossible to Take Up Taft's Recommendations—Besides, the Democrats Will Postpone Important Matters Until They Are in Full Control of Congress at the Extra Session.

By ARTHUR W. DUNN.

Washington, Dec. 3.—[Special.]—President Taft's last annual message to congress was not of such interest as to hold the attention of all the members in either house. While it was listened to with respect and attention by those who took that method of absorbing it, the fact that printed copies of messages are now distributed gives members an opportunity to take them to their rooms and read them at their leisure.

Message day has not the significance that used to attach to it on the days when the first intimation of what it contained came when it was read in congress. Now there is such a widespread circulation of the message before it is delivered that many persons are pretty well acquainted with its main features.

### Academic Discussion.

This year it is realized that the message, so far as it relates to general legislation, is an academic discussion, because it will be impossible to take up the recommendations and put them into law even if there was a congress inclined to do so. At present, however, it is known that the Democrats intend to postpone all important matters until they are in full control in the extra session.

### Who Are Radicals?

For a time after Woodrow Wilson was elected there was talk about such conservatives as Speaker Clark and Leader Underwood blocking the progressiveness of the new president. Then friends of Wilson began pointing out some of his utterances, which showed that, while he was a tariff reformer, he was no radical even on that subject. Later along came Champ Clark and Oscar Underwood with statements that the pledges of the party must be carried out.

Clark said the tariff must be reduced to a revenue basis. Then those who were beginning to believe that there was not going to be much tariff legislation, after all, realized there was going to be real and effective action.

### Canal Jan. 1, 1914.

One of the engineers who have been working on the canal zone for many years says that the canal will be open for ships Jan. 1, 1914. Various dates have been suggested by Colonel Goethals, and the congressmen who have visited the canal say that it will be opened in about a year. That will be much sooner than many Americans anticipated.

### Quintet of Eighteen-year-olds.

When the extra session assembles five senators who have been eighteen years in continuous service will be among those who will take the oath of office for another six years. They are Bacon of Georgia, Martin of Virginia, Tillman of South Carolina, Nelson of Minnesota and Warren of Wyoming. These five are in a class by themselves. Warren was a senator for three years once before, but he failed of re-election. He had also been governor of the territory Nelson served six years in the house and was governor. Tillman and Bacon were governors.

### John Sharp Lectures.

A congressional reputation seems to be good for a lecture engagement. John Sharp Williams is in demand as a lecturer at different times. It has been thought that when a man gives his time to lecturing he is apt to neglect his congressional work. Williams will have time enough to lecture for a few months, however, for it will take some time for the Democrats of the house to get a tariff bill ready, and it is not expected that the senate will have very much to do until the extra session.

### A Three Months' Worry.

Where to hold the inaugural ball is a question that has begun to worry Washington. It always does about this time of the year. The inaugural ball is not a ball. It is a jam of people who pay a lot of money for the purpose of getting a glimpse of the new president and his family. The 90,000,000 people of the United States would be just as well off if there was no inaugural ball. The men who finance an inauguration would not be so well off, as the ball is a money maker. It ought to be, as it comes nearer giving nothing for something than anything that happens in Washington. Just now there is talk of using the capitol for the ball. It would be quite a start toward true democracy if the ball was omitted.

### Bacon, Lone Defender.

The defenders of the constitution are getting scarce in the United States senate. The retirement of Bailey and the death of Rayner limits the Democratic side to Bacon of Georgia. There may be recruits among the new senators, and with Bailey and Rayner no longer in the senate others may appear to help Bacon in defense of the fundamental law.

### Linseed.

Linseed is the nearest approach to milk in composition of any natural vegetable food.

### SENATOR WORKS.

Would Make It a Felony to Shut Off Money Supply.

### TO STOP BLOCKING RIVALS

Works' Measure Makes It Felony to Shut Off Money Supply.

Washington, Dec. 3.—Senator Works has prepared for introduction in the senate a bill making it a felony for any person or corporation to interfere with another person or corporation obtaining financial aid in the organization or carrying on of any interstate business. The bill is based on complaints of the interference of railroads with prospective rivals by impairing their credit.

### CANNON RECEIVES STIRRING OVATION

Sixty-second Congress Gathers for Its Last Session.

Washington, Dec. 3.—Amid wreaths of cypress and of laurel the Sixty-second congress assembled for its last session. The laurel was for the victors such as William Sulzer, who has been elected governor of New York, and James Cox, who will soon be the governor of Ohio. The cypress was for the late Vice President Sherman and for Senators Rayner and Heyburn and, in a more figurative sense, for Uncle Joe Cannon, defeated for re-election to congress after a service of many years, but in spite of that the recipient of the greatest ovation given on the floor of the house.

Although Governor Elect Cox is one of the most popular men who ever served in the house and was received like a king and Governor Elect Sulzer timed his entry dramatically and was received like an emperor, Uncle Joe, who shuffled in with a throng, was no sooner distinguished than the house over which he had presided rose to its feet and shouted for him until it was weary. The little touch of nature made everybody kin, Democrats, Republicans and Progressives.

No business was transacted by the senate, which was in session twenty-two minutes, but a number of bills and resolutions were introduced in the house. A joint committee was named by the two houses to notify President Taft that congress was ready to receive his communications.

### WOULD PENSION PRESIDENTS

Representative De Forest of New York Offers Bill.

Washington, Dec. 3.—The first public bill introduced in the house was to pension former presidents of the United States and their widows. It was by Representative De Forest of New York and would provide \$2,000 a month for a former president. A widow of a former president would be pensioned at the rate of \$1,000 a month during her widowhood. A minor child or children of a former president under the age of twenty-one years with parents both dead would get \$200 a month.

Representative De Forest also introduced a resolution for a constitutional amendment to limit the tenure of the presidential office to one term of six years, and another repealing the newspaper publicity section of the last postoffice appropriation bill.

### WOULD SELL POSTAL TUBES

Officials of Concerns Owning Them Offer Them to Government.

Washington, Dec. 3.—Representatives of the American Pneumatic Service company appeared before a special senate commission, of which Senator Guggenheim of Colorado is chairman, to urge that the government purchase the postal pneumatic tube systems in New York, Chicago, Boston and St. Louis.

The commission was told that this company through subsidiaries had invested about \$7,250,000 in the four cities and would be willing to sell at a fair valuation, to be agreed upon after investigation by government experts.

## RULING MAY BE OF WIDE EFFECT

### DEFENSE BEGINS IN BLAST TRIAL

President Ryan of Ironworkers the First Witness.

### DENIES HIRING DYNAMITERS

Union Official Asserts Neither He Nor the Executive Board Members Had Knowledge of Any Money Having Been Expended by J. J. McNamara to Blow Up Jobs on Which Nonunion Men Were Employed.

Indianapolis, Dec. 3.—Efforts were made in the examination of Frank M. Ryan, president of the International Association of Bridge and Structural Ironworkers, in the so called dynamite conspiracy trial to show that those who already have confessed alone caused the illegal transportation of explosives on passenger trains to blow up nonunion iron and steel jobs. Ryan was the first witness for the defense. He was the 550th person to testify in the trial, 549 having been called by the government.

Ryan testified that neither he nor the executive board members knew of any money having been expended by McNamara for dynamiting purposes. All the letters written by him to business agents in various cities, which the government charges contained veiled instructions about jobs to be blown up, Ryan said, simply referred to work upon which nonunion men were employed and upon which it was desired to put union men.

"Did you ever talk to Orlie E. McManigal about dynamiting or tell him to change his appearance often?" asked Attorney William N. Harding.

Knew McManigal Slightly. "I hardly knew McManigal and certainly never knew he was employed as a dynamiter for McNamara or any one else."

He stated he never had visited a vault in the ironworkers' headquarters in Indianapolis where nitroglycerin and dynamite had been kept and he never had proposed, as charged, that J. J. McNamara, then secretary of the union, take Hockin's place as head of the "dynamiting crew."

He denied he had urged violence in the union's strike called seven years ago and which is still on.

Questioned why he inclosed in a letter a newspaper clipping giving an account of an explosion he explained it was sent to McNamara as a matter of news. He denied he had told Edward Clark, the confessed dynamiter, about blowing up a job in Cincinnati. Ryan said in 1906 he called on President Roosevelt.

### REPUBLICAN CAMPAIGN FUND

Charles P. Taft Leads List of Contributors.

Washington, Dec. 3.—Charles P. Taft of Cincinnati, brother of the president, led the contributors to the Republican campaign fund with \$150,000, according to the final statement of the Republican national committee filed with the clerk of the house. The total contributions received reached \$904,828. The expenditures were \$900,363 for speakers, salaries, advertising, rent and other purposes, including \$75,000 to the American Association of Foreign Newspapers.

In the list of individual contributions were items of \$50,000 from Francis L. Leland of New York; \$25,000 each from the J. P. Morgan company and Andrew Carnegie, while the Yale Taft club, class of '78, in New Jersey, contributed \$14,725, and Harry B. Rosen-garten, Philadelphia, \$15,500.

### DECIDED MINNESOTA CASE

Supreme Court Upholds State Statute in Land Company's Suit.

Washington, Dec. 3.—The decision of the Minnesota supreme court in the case of Selover, Bates & Co. against Ella T. Walsh, was affirmed by the United States supreme court. Justice McKenna delivered the opinion. Chief Justice White and Justice Van Devanter dissented. The suit arose over a contract made in Minnesota for the sale of land in Colorado and it was contended that the law of Colorado should rule instead of that of Minnesota. The court refused to take this view of the case and upheld the Minnesota court.

### Purpose and Success.

It is the old lesson—a worthy purpose, patient energy for its accomplishment, a resoluteness undaunted by difficulties and then success.—W. M. Pughson.

It is seldom that punishment, though lame of foot, has failed to overtake a villain.—Horace.

Supreme Court Opinion Revolutionizes Railway Control.

### MANY LINES ARE AFFECTED

Decision Ordering Union Pacific Railroad Company to Divest Itself of Stock It Owns in the Southern Pacific Railroad Company Is Regarded as a Severe Blow to Many Other Combines of a Similar Nature.

Washington, Dec. 3.—A revolution in railroad control is precipitated by the decision of the United States supreme court, ordering the Union Pacific Railroad company to divest itself of the stocks it owns in the Southern Pacific Railroad company.

Great railroad systems, combining competing lines, no longer are possible in this country as a result of the application of the Sherman anti-trust law to the Union Pacific-Southern Pacific situation.

A railroad may acquire connecting lines, as shown by the authorization given by the court to the Union Pacific to retain possession of the Central Pacific, owned by the Southern Pacific. This will enable the Union Pacific to run from the Missouri river to the Pacific coast.

But no matter how far apart two railroads are they cannot be embraced in the same system if they compete. Thus the Union Pacific is prohibited from controlling the Southern Pacific, though at points these roads are distant 1,000 miles from each other.

Applying the same principles as the court laid down in the Union Pacific-Southern Pacific merger it is the opinion of lawyers that, among others, the following roads must divest themselves of the control they have of competing lines included in their systems:

New York Central, which controls the Michigan Central and Lake Shore, two competing roads between Chicago and Buffalo.

New York Central, which through the Lake Shore, controls the Big Four.

New York Central Hard Hit.

New York Central, which controls the West Shore railroad.

New York Central and New York, New Haven and Hartford, which controls the Boston and Albany railroad.

Lake Shore, which controls the New York, Chicago and St. Louis.

Pennsylvania, which owns the Pennsylvania lines and the Pan Handle.

Illinois Central, which controls the Yazoo and Mississippi Valley, and the Union Pacific, which owns more than 25 per cent of the Illinois Central stock.

Chicago and Northwestern, which controls the Chicago, St. Paul, Minneapolis and Omaha railroad.

Great Northern and Northern Pacific, which jointly control the Burlington.

Missouri Pacific, which controls the St. Louis, Iron Mountain and Southern.

Union Pacific, which controls the St. Joseph and Grand Island.

Canadian Pacific, which owns the Soo line and the Duluth, South Shore and Atlantic.

There are other roads also which, it is believed, will fall within the scope of the decision of the supreme court, but in all the cases the facts as developed will naturally have an important bearing upon the question of whether or not the lines they control are competing.

The decision means that the harmonization of the American railroads cannot be effected. In other words, it is impossible for a great captain of transportation to seize road after road and combine them into a single system whether they are competing or not.

### WILL MARRY CAMERON GIRL

Jack Johnson Says She Will Become His Wife.

Chicago, Dec. 3.—Jack Johnson, in an interview, declared that before the end of the week he would marry Miss Lucile Cameron, the Minneapolis girl, his relations with whom resulted in federal indictments charging the negro with violation of the Mann law.

"I have known where she was ever since she left the Wellington hotel last Wednesday," said the negro pugilist. "I will not state where she is now, where the ceremony will be performed or anything else about it; I don't want Miss Cameron annoyed. She will be in court, however, when my case is called."

### WITHOUT POSTAL SERVICE

Next Year's Federal Expenses Are Placed at \$823,415,455.

Washington, Dec. 3.—It will cost \$823,415,455.14 to conduct the affairs of the government for the fiscal year ending June 30, 1914, according to estimates of the various department heads submitted to the speaker of the house by the secretary of the treasury. This amount, which does not include any provision for the postal service, which is expected to be self-supporting, is an increase of \$72,074,245 over the appropriations made for the present year by the last session of congress.

## RUSSIA MASSES 500,000 SOLDIERS

Large Army Gathers Behind Polish Fortresses.

REPORTS ARE CONFLICTING

While the General European Situation Seems to Be More Peacefully Inclined Continued Reports of Mobilization Create Some Uneasiness. Germany and England Co-Operating Amicably in Favor of Peace.

Vienna, Dec. 3.—According to the Reichspost, Russia has concentrated half a million troops behind the girdle of the Polish fortresses. All the Polish regiments have been sent either to the interior or the Caucasus. The paper adds that more than 100 Russian spies have been arrested in Galicia.

London, Dec. 3.—The imperial German chancellor's statement on the European situation, together with that of Herr von Kiderlen-Waechter, the German foreign secretary, confirming that Great Britain and Germany are co-operating amicably in favor of peace, is regarded in the European capitals as reassuring and as calculated to have an effect when the peace delegates come to discuss terms.

Dr. von Bethmann-Holweg's declaration of the solidarity of the triple alliance, which, it is reported, has just been renewed for another term of years, and his announcement of Germany's determination to pursue a policy upholding Turkey in an economic sense, is likely to influence the delegates of all the countries concerned to discuss peace conditions in the spirit of moderation already shown in the armistice negotiations.

Although there is no change in the actual situation some misgiving is beginning to be expressed with regard to the attitude of Greece. Various reasons are assigned for Greek reluctance to sign the armistice. According to the Greek minister at Paris, Greece opposes the proposal that the besieged garrisons shall be provisioned during the armistice and thinks that the allies ought to have insisted upon their surrender.

There is no doubt that jealousy exists between Greece and Bulgaria. Greece asserts that the Greek fleet played an important role in the war, and especially in preventing Turkey from moving her troops by sea, and that without her naval assistance the allies could not have achieved such a brilliant success. The race between the Greeks and the Bulgarians for the occupation of Salonika and the incidents which followed this increased the ill feeling and now the Greeks consider that their interests are being sacrificed in the peace negotiations.

### FORMING THREE ARMIES

Austria Said to Be Actively Preparing for War.

London, Dec. 3.—The Belgrade correspondent of the Chronicle gives an outline of the Austrian war plans and says:

"Austria is forming three armies, one directed against Russia and one against Serbia. The first, or northern army, to defend Galicia, is being concentrated in the fortified triangle formed by Cracow, Tomaszow and Zampol. Around Lemberg and along the frontier entrenchments are being dug and the vast plain covered with entanglements to check the possible advance of Russian cavalry. The second, or eastern army, is being formed in Transylvania and Bukovina along the Russian frontier. The third, or southern army, will operate partly from the south of Hungary against Belgrade and Semendria, force a passage over the Danube to Moravia valley, and partly from Serbia and Herzegovina against the Serbian frontier and the San of Novipazar."

### WEEKS DELAY ARMISTICE

Peace Negotiations May Take Place in London.

Constantinople, Dec. 3.—The armistice has not yet been signed. The plenipotentiary is still waiting instructions from his government.

It is believed in Constantinople that the peace negotiations will take place in neutral territory. According to information in official circles the ambassadorial conference to be held in London, the original proposal having emanated from London.

### ELSON GIVES FIRST AID

Rescues a Honeymoon Couple Who Fall From Their Bicycles. Hamilton, Bermuda, Dec. 3.—President Elson Wilson was a principal in the first aid case. He rescued a honeymoon couple who fell from their bicycles in front of his house. The wife was slightly injured and one of Wilson's daughters assisted in giving her wounds.

### PAID MONEY TO KILL BILL

Harvester Trust Fought South Dakota Prison Measure.

St. Louis, Dec. 3.—That as agent for the International Harvester company he spent \$300 or \$500 in 1903 to kill a bill pending in the South Dakota legislature, which would have authorized the manufacture of binding twine in the state penitentiary, was testified by Michael H. Lamb of Mission, Tex., at the opening session of the St. Louis hearing in the government's suit to dissolve the International Harvester company.

Testimony was taken before Special Examiner Robert Taylor of Duluth. Lamb, who was formerly a general agent of the McCormick Harvester company and later of the International, testified that when the bill came up he consulted John H. Bowler, former warden of the penitentiary, and being told it would take money to defeat the bill, so wrote to Henry L. Daniels, general manager of the International.

"A few days later I received a package of new \$20 bills, with instructions to turn the money over to Bowler," Lamb declared.

### OROZCO IN THE FIELD AGAIN

Mexican Revolutionist Has Cash and New Equipment.

El Paso, Tex., Dec. 3.—His health so improved that he is able to take the field again General Pascual Orozco, Jr., with his troops, is moving in a westerly direction from Coyame, below Presidio, Tex.

Ranchmen arriving here report that the leader of the Mexican revolution in the north has all new equipment for his 400 followers, ample ammunition and seemingly plentiful funds with which he is paying for all supplies secured from ranches on his route. The presence of Orozco in the field is verified by advices received by the Mexican secret service.

### KILL 9,000 DEER IN WISCONSIN.

Madison, Wis., Dec. 3.—The state game warden's department announced that about 4,500 deer have been offered for transportation in the season just closed and it is estimated that about twice that number have been killed in Wisconsin.

### New High Price for Steers.

Chicago, Dec. 3.—The highest price ever paid for steers in the open market was reached when ten Angus yearlings were bought in at \$12 for the Eastern trade. The highest previous price was \$11.05 paid on Oct. 23.

### FATAL FIRE AT NEW YORK

At Least Two Persons Perish in Apartment House.

New York, Dec. 3.—Two persons lost their lives in an apartment house fire on upper Fifth avenue and five other persons are missing.

The building is a six-story structure occupied by many families. The fire smoldered for half an hour on the top floor before discovered and when the firemen arrived the lives of so many were in jeopardy that life nets were spread and scaling ladders used to effect rescues.

### Stimson Back From Canal Zone.

Washington, Dec. 3.—Secretary of War Stimson has returned from a six-day stay in the Panama canal zone, whither he went to familiarize himself with the problem of the military defense of the canal. His views on this question will be presented soon in his annual report.

### DOMESTIC TROUBLES RESULT IN TRAGEDY

Maine Woman Drowns Two Children and Herself.

Rockland, Me., Dec. 3.—Mrs. Austin Elwell killed her two children and herself, according to the belief expressed by the police, by jumping with them into an abandoned limestone quarry 400 feet deep and nearly filled with water. Family trouble is believed to have caused the act. Mrs. Elwell was twenty-three years old and the children, both boys, were aged five and four years.

There were no witnesses to the tragedy. The woman and the children were seen going into the quarry inclosure. Later their outer garments were found on the edge of the cliff. The children's clothing was neatly folded.

It is thought that the woman, taking the boys by the hand, stood on the edge of the quarry and then jumped, dragging the children to death with her.

Mrs. Elwell, friends said, had separated from her husband a year ago.

### UNIFORM PRICE LAW VALID

South Dakota Wins Case in Federal Supreme Court.

Washington, Dec. 3.—The supreme court, in an opinion by Associate Justice Holmes, upheld the validity of a statute of South Dakota which makes it unlawful for any person, corporation or other dealer in a commodity in general use to sell such a commodity at a lower price in one locality, making due allowance for difference in cost of transportation and distribution, than in another locality.

The case was brought to the supreme court by the Central Lumber company, a corporation which was proceeded against in one of the local courts of South Dakota for violating the statute. The lumber company demurred to the complaint, brought against it on the ground that the law violated the federal Constitution. The case was carried to the supreme court of South Dakota, which upheld the validity of the law, and the lumber company appealed to the supreme court of the United States.

### SEES NO MONEY STRINGENCY

MacVeagh Thinks Banks Don't Need Government Aid.

Washington, Dec. 3.—Secretary MacVeagh of the treasury department declared his opinion that no emergency existed in the money market at this time justifying the intervention of the government with deposits of surplus federal funds in the national banks. With the rate on call money soaring from 10 to 20 per cent during the last few days there have been rumors in Wall street that the secretary might deposit \$25,000,000 or more to replenish the supply.

Mr. MacVeagh attributed the high rates to several temporary factors and said that apparently all transactions were being met. If necessity arose, he added, the government would come to the rescue.

## MESSAGE DAY LOSES INTEREST

Advance Distribution Robs Occasion of Old Significance.

PURELY ACADEMIC THIS YEAR.

Impossible to Take Up Taft's Recommendations—Besides, the Democrats Will Postpone Important Matters Until They Are in Full Control of Congress at the Extra Session.

By ARTHUR W. DUNN.

Washington, Dec. 3.—[Special.]—President Taft's last annual message to congress was not of such interest as to hold the attention of all the members in either house. While it was listened to with respect and attention by those who took that method of absorbing it, the fact that printed copies of messages are now distributed gives members an opportunity to take them to their rooms and read them at their leisure.

Message day has not the significance that used to attach to it on the days when the first intimation of what it contained came when it was read in congress. Now there is such a widespread circulation of the message before it is delivered that many persons are pretty well acquainted with its main features.

### Academic Discussion.

This year it is realized that the message, so far as it relates to general legislation, is an academic discussion, because it will be impossible to take up the recommendations and put them into law even if there was a congress inclined to do so. At present, however, it is known that the Democrats intend to postpone all important matters until they are in full control in the extra session.

### Who Are Radicals?

For a time after Woodrow Wilson was elected there was talk about such conservatives as Speaker Clark and Leader Underwood blocking the progressiveness of the new president. Then friends of Wilson began pointing out some of his utterances, which showed that, while he was a tariff reformer, he was no radical even on that subject. Later along came Champ Clark and Oscar Underwood with statements that the pledges of the party must be carried out.

Clark said the tariff must be reduced to a revenue basis. Then those who were beginning to believe that there was not going to be much tariff legislation, after all, realized there was going to be real and effective action.

### Canal Jan. 1, 1914.

One of the engineers who have been working on the canal zone for many years says that the canal will be open for ships Jan. 1, 1914. Various dates have been suggested by Colonel Goethals, and the congressmen who have visited the canal say that it will be opened in about a year. That will be much sooner than many Americans anticipated.

### Quintet of Eighteen-year-olds.

When the extra session assembles five senators who have been eighteen years in continuous service will be among those who will take the oath of office for another six years. They are Bacon of Georgia, Martin of Virginia, Tillman of South Carolina, Nelson of Minnesota and Warren of Wyoming. These five are in a class by themselves. Warren was a senator for three years once before, but he failed of re-election. He had also been governor of the territory Nelson served six years in the house and was governor. Tillman and Bacon were governors.

### John Sharp Lectures.

A congressional reputation seems to be good for a lecture engagement. John Sharp Williams is in demand as a lecturer at different times. It has been thought that when a man gives his time to lecturing he is apt to neglect his congressional work. Williams will have time enough to lecture for a few months, however, for it will take some time for the Democrats of the house to get a tariff bill ready, and it is not expected that the senate will have very much to do until the extra session.

### A Three Months' Worry.

Where to hold the inaugural ball is a question that has begun to worry Washington. It always does about this time of the year. The inaugural ball is not a ball. It is a jam of people who pay a lot of money for the purpose of getting a glimpse of the new president and his family. The 90,000,000 people of the United States would be just as well off if there was no inaugural ball. The men who finance an inauguration would not be so well off, as the ball is a money maker. It ought to be, as it comes nearer giving nothing for something than anything that happens in Washington. Just now there is talk of using the capitol for the ball. It would be quite a start toward true democracy if the ball was omitted.

### Bacon, Lone Defender.

The defenders of the constitution are getting scarce in the United States senate. The retirement of Bailey and the death of Rayner limits the Democratic side to Bacon of Georgia. There may be recruits among the new senators, and with Bailey and Rayner no longer in the senate others may appear to help Bacon in defense of the fundamental law.

### SENATOR WORKS.

### TO STOP BLOCKING RIVALS

Works' Measure Makes It Felony to Shut Off Money Supply.

Washington, Dec. 3.—Senator Works has prepared for introduction in the senate a bill making it a felony for any person or corporation to interfere with another person or corporation obtaining financial aid in the organization or carrying on of any interstate business. The bill is based on complaints of the interference of railroads with prospective rivals by impairing their credit.

### CANNON RECEIVES STIRRING OVATION

Sixty-second Congress Gathers for Its Last Session.

Washington, Dec. 3.—Amid wreaths of cypress and of laurel the Sixty-second congress assembled for its last session. The laurel was for the victors such as William Sulzer, who has been elected governor of New York, and James Cox, who will soon be the governor of Ohio. The cypress was for the late Vice President Sherman and for Senators Rayner and Heyburn and, in a more figurative sense, for Uncle Joe Cannon, defeated for re-election to congress after a service of many years, but in spite of that the recipient of the greatest ovation given on the floor of the house.

Although Governor Ellet Cox is one of the most popular men who ever served in the house and was received like a king and Governor Ellet Sulzer timed his entry dramatically and was received like an emperor, Uncle Joe, who shuffled in with a throng, was no sooner distinguished than the house over which he had presided rose to its feet and shouted for him until it was weary. The little touch of nature made everybody kin, Democrats, Republicans and Progressives.

No business was transacted by the senate, which was in session twenty-two minutes, but a number of bills and resolutions were introduced in the house. A joint committee was named by the two houses to notify President Taft that congress was ready to receive his communications.

### WOULD PENSION PRESIDENTS

Representative De Forest of New York Offers Bill.

Washington, Dec. 3.—The first public bill introduced in the house was to pension former presidents of the United States and their widows. It was by Representative De Forest of New York and would provide \$2,000 a month for a former president. A widow of a former president would be pensioned at the rate of \$1,000 a month during her widowhood. A minor child or children of a former president under the age of twenty-one years with parents both dead would get \$200 a month.

Representative De Forest also introduced a resolution for a constitutional amendment to limit the tenure of the presidential office to one term of six years, and another repealing the newspaper publicity section of the last postoffice appropriation bill.

### WOULD SELL POSTAL TUBES

Officials of Concerns Owning Them Offer Them to Government.

Washington, Dec. 3.—Representatives of the American Pneumatic Service company appeared before a special senate commission, of which Senator Guggenheim of Colorado is chairman, to urge that the government purchase the postal pneumatic tube systems in New York, Chicago, Boston and St. Louis.

The commission was told that this company through subsidiaries had invested about \$7,250,000 in the four cities and would be willing to sell at a fair valuation, to be agreed upon after investigation by government experts.

## RULING MAY BE OF WIDE EFFECT

### DEFENSE BEGINS IN BLAST TRIAL

President Ryan of Ironworkers the First Witness.

### DENIES HIRING DYNAMITERS

Union Official Asserts Neither He Nor the Executive Board Members Had Knowledge of Any Money Having Been Expended by J. J. McNamara to Blow Up Jobs on Which Nonunion Men Were Employed.

Indianapolis, Dec. 3.—Efforts were made in the examination of Frank M. Ryan, president of the International Association of Bridge and Structural Ironworkers, in the so called dynamite conspiracy trial to show that those who already have confessed alone caused the illegal transportation of explosives on passenger trains to blow up nonunion iron and steel jobs. Ryan was the first witness for the defense. He was the 550th person to testify in the trial, 549 having been called by the government.

Ryan testified that neither he nor the executive board members knew of any money having been expended by McNamara for dynamiting purposes. All the letters written by him to business agents in various cities, which the government charges contained veiled instructions about jobs to be blown up, Ryan said, simply referred to work upon which nonunion men were employed and upon which it was desired to put union men.

"Did you ever talk to Orlie E. McManigal about dynamiting or tell him to change his appearance often, or he would not be recognized?" asked Attorney William N. Harding.

### Knew McManigal Slightly.

"I hardly knew McManigal and certainly never knew he was employed as a dynamiter for McNamara or any one else."

He stated he never had visited a vault in the ironworkers' headquarters in Indianapolis where nitroglycerin and dynamite had been kept and he never had proposed, as charged, that J. J. McNamara, then secretary of the union, take Hockins' place as head of the "dynamiting crew."

He denied he had urged violence in the union's strike called seven years ago and which is still on.

Questioned why he inclosed in a letter a newspaper clipping giving an account of an explosion he explained it was sent to McNamara as a matter of news. He denied he had told Edward Clark, the confessed dynamiter, about blowing up a job in Cincinnati.

Ryan said in 1906 he called on President Roosevelt.

"I went to the White House to attempt to stop the coercion of the United States Steel corporation," he asserted. The district attorney objected. Ryan then said he talked with the president about a possible settlement. Later he said he appealed to the National Erectors' association for a conference, but it was denied.

### REPUBLICAN CAMPAIGN FUND

Charles F. Taft Leads List of Contributors.

Washington, Dec. 3.—Charles F. Taft of Cincinnati, brother of the president, led the contributors to the Republican campaign fund with \$150,000, according to the final statement of the Republican national committee filed with the clerk of the house. The total contributions received reached \$904,828. The expenditures were \$900,363 for salaries, advertising, rent and other purposes, including \$75,000 to the American Association of Foreign Newspapers.

In the list of individual contributions were items of \$50,000 from Francis L. Leland of New York; \$25,000 each from the J. P. Morgan company and Andrew Carnegie, while the Yale Taft club, class of '78, in New Jersey, contributed \$14,725, and Harry B. Rosen-garten, Philadelphia, \$15,500.

### DECIDED MINNESOTA CASE

Supreme Court Upholds State Statute in Land Company's Suit.

Washington, Dec. 3.—The decision of the Minnesota supreme court in the case of Selover, Bates & Co. against Ella T. Walsh, was affirmed by the United States supreme court. Justice McKenna delivered the opinion. Chief Justice White and Justice Van Devanter dissented. The suit arose over a contract made in Minnesota for the sale of land in Colorado and it was contended that the law of Colorado should rule instead of that of Minnesota. The court refused to take this view of the case and upheld the Minnesota court.

Supreme Court Opinion Revolutionizes Railway Control.

MANY LINES ARE AFFECTED

Decision Ordering Union Pacific Railroad Company to Divest Itself of Stock It Owns in the Southern Pacific Railroad Company Is Regarded as a Severe Blow to Many Other Combines of a Similar Nature.

Washington, Dec. 3.—A revolution in railroad control is precipitated by the decision of the United States supreme court, ordering the Union Pacific Railroad company to divest itself of the stocks it owns in the Southern Pacific Railroad company.

Great railroad systems, combining competing lines, no longer are possible in this country as a result of the application of the Sherman anti-trust law to the Union Pacific-Southern Pacific situation.

A railroad may acquire connecting lines, as shown by the authorization given by the court to the Union Pacific to retain possession of the Central Pacific, owned by the Southern Pacific. This will enable the Union Pacific to run from the Missouri river to the Pacific coast.

But no matter how far apart two railroads are they cannot be embraced in the same system if they compete. Thus the Union Pacific is prohibited from controlling the Southern Pacific, though at points these roads are distant 1,000 miles from each other.

Applying the same principles as the court laid down in the Union Pacific-Southern Pacific merger it is the opinion of lawyers that, among others, the following roads must divest themselves of the control they have of competing lines included in their systems:

New York Central, which controls the Michigan Central and Lake Shore, two competing roads between Chicago and Buffalo.

New York Central, which through the Lake Shore, controls the Big Four.

### New York Central Hard Hit.

New York Central, which controls the West Shore railroad.

New York Central and New York, New Haven and Hartford, which controls the Boston and Albany railroad.

Lake Shore, which controls the New York, Chicago and St. Louis.

Pennsylvania, which owns the Pennsylvania lines and the Pan Handle.

Illinois Central, which controls the Yazoo and Mississippi Valley, and the Union Pacific, which owns more than 25 per cent of the Illinois Central stock.

Chicago and Northwestern, which controls the Chicago, St. Paul, Minneapolis and Omaha railroad.

Great Northern and Northern Pacific, which jointly control the Burlington.

Missouri Pacific, which controls the St. Louis, Iron Mountain and Southern.

Union Pacific, which controls the St. Joseph and Grand Island.

Canadian Pacific, which owns the Soo line and the Duluth, South Shore and Atlantic.

There are other roads also which, it is believed, will fall within the scope of the decision of the supreme court, but in all the cases the facts as developed will naturally have an important bearing upon the question of whether or not the lines they control are competing.

The decision means that the harmonization of the American railroads cannot be effected. In other words, it is impossible for a great captain of transportation to seize road after road and combine them into a single system whether they are competing or not.

### WILL MARRY CAMERON GIRL

Jack Johnson Says She Will Become His Wife.

Chicago, Dec. 3.—Jack Johnson, in an interview, declared that before the end of the week he would marry Miss Lucile Cameron, the Minneapolis girl, his relations with whom resulted in federal indictments charging the negro with violation of the Mann law.

"I have known where she was ever since she left the Wellington hotel last Wednesday," said the negro pugilist. "I will not state where she is now, where the ceremony will be performed or anything else about it; I don't want Miss Cameron annoyed. She will be in court, however, when my case is called."

### WITHOUT POSTAL SERVICE

Next Year's Federal Expenses Are Placed at \$823,415,455.

Washington, Dec. 3.—It will cost \$823,415,455.14 to conduct the affairs of the government for the fiscal year ending June 30, 1914, according to estimates of the various department heads submitted to the speaker of the house by the secretary of the treasury. This amount, which does not include any provision for the postal service, which is expected to be self-supporting, is an increase of \$72,074,248 over the appropriations made for the present year by the last session of congress.

The month just closed was the driest of any November during the past 76 years, the total precipitation being but .08 of an inch. The normal rainfall for the month is 1.18 of an inch.

Mary D. McFadden has taken over the management of the Courant, a monthly magazine published at St. Paul and devoted to the interest of the suffrage cause. The publication is also the official organ of club women in six states. Miss McFadden is well known throughout Minnesota and has been connected with several of the leading newspapers as a writer of note, and that she will make a success of her new venture goes without saying. She will have the good will of the newspaper boys of the northwest who will be found boosting for her publication at every turn in the road. Mary needs no money, as every other newspaper publisher does, and to make the ghost walk regularly the women must come in with their \$1 per in advance if they would see the defender of their rights succeed.

Mr. and Mrs. Thomas Deakes and Mrs. Mary Jones left Saturday for their old home in Staffordshire, England, which Mrs. Jones has not visited for 20 years or more. John Carlson sold them tickets on the Allen line. They sail from St. John, Canada to Liverpool and thence travel by train to their destination. They expect to return some time in March.

John R. Olson, 1420 Pine street, aged 21, died last night of consumption. He was the son of Mr. and

Mrs. J. C. Olson and leaves surviving his parents and three brothers, George, William and Theodore and three sisters, Anna, Lena and Ruth. The funeral will be held at 2:30 Friday afternoon from Lozey & Dean's chapel, Rev. R. E. Cody officiating.

At the debate given last week at the Lowell school the subject under consideration was "Resolved, That the Negro Was Better Off Before the War Than After the War." The affirmative won. On the affirmative side were George Groff, Edward Kosbab and Charles Searlet. On the negative side were Christopher Kirch, Clarence Bloomstrom and Emil Thompson.

Mrs. L. B. Treglawny, mother of Deputy County Auditor Harry B. Treglawny, is recovering from injuries sustained by being upset from a buggy Saturday evening. Mrs. Treglawny had her single horse drawn up near the curb on South Seventh street and a farmer, passing through the alley, made a sharp turn, caught the rear wheel of the buggy, overturned it and threw Mrs. Treglawny to the ground between the wheels of her buggy. Her back was badly wrenched.

Dr. Francis M. Shook, of New York City, son of Capt. and Mrs. F. M. Shook, arrived here last Saturday on a visit to his parents. Dr. Shook resigned his position as surgeon in the navy some time ago owing to impaired health incurred during several years service in the Canal zone at Panama. He is on his way to the Pacific coast to look over Portland and Seattle with a view to locating in one place or the other. His health has much improved since leaving the service.—Aitkin Independent.

There are many who deny that there is any historical basis for the story of the Doones of Badgeworth and that there was ever a giant John Ridd of Oare. **Emerson and the Church.**

During the short period of Emerson's pastorate he was obliged to call on an old man who was dying. The young minister murmured apologetically a number of confused and clumsy commonplace, and finally his aged client cried sharply, "Young man, if you don't know your business you had better go home." Emerson, who came to give advice, took it like the honest and sincere man he was, and he had no peace until he left the church for good and all. He was totally unfitted to be a minister because he had no Christian faith, and as soon as he realized his unfitness he sought another occupation and became enormously useful to humanity in other ways.—Century.

**"CASCARETS" FOR A SICK, SOUR STOMACH**

Gently but Thoroughly Cleanse and Regulate Your Stomach, Liver and Bowels While You Sleep

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets; they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. Then your stomach trouble is ended. A Cascaret tonight, will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too.—Adv.

Mary D. McFadden has taken over  
the management of the Courant, a  
monthly magazine published at St.  
Paul and devoted to the interest of  
the suffrage cause. The publication  
is also the official organ of club  
women in six states. Miss McFad-

several of the leading newspapers as  
a writer of note, and that she will  
make a success of her new venture  
goes without saying. She will have  
the good will of the newspaper boys  
of the northwest who will be found  
boosting for her publication at every  
turn in the road. Mary needs no  
money, as every other newspaper pub-

walk regularly the women must come  
in with their \$1 per in advance if  
they would see the defender of their  
rights succeed.

During the short period of Emerson's  
pastorate he was obliged to call on an  
old man who was dying. The young  
minister murmured apologetically a  
number of confused and clumsy com-  
monplaces, and finally his aged client  
cried sharply, "Young man, if you don't  
know your business you had better go  
home." Emerson, who came to give  
advice, took it like the honest and sin-  
cere man he was, and he had no peace  
until he left the church for good and  
all. He was totally unfitted to be a  
minister because he had no Christian  
faith, and as soon as he realized his  
unfitness he sought another occupa-  
tion and became enormously useful to  
humanity in other ways.—Century.

**"CASCARETS" FOR A  
SICK, SOUR STOMACH**

Gently but Thoroughly Cleanse and  
Regulate Your Stomach, Liver  
and Bowels While You  
Sleep

That awful sourness, belching of  
acid and foul gases; that pain in the  
pit of the stomach, the heartburn,  
nervousness, nausea, bloating after  
eating, feeling of fullness, dizziness  
and sick headache, means a disor-  
dered stomach, which cannot be regu-  
lated until you remove the cause. It  
isn't your stomach's fault. Your  
stomach is as good as any.

Try Cascarets; they immediately  
cleanse and regulate the stomach,  
remove the sour, undigested and fer-  
menting food and foul gases; take the  
excess bile from the liver and carry  
off the constipated waste matter and  
poison from the intestines and bow-  
els. Then your stomach trouble is  
ended. A Cascaret tonight, will  
straighten you out by morning—a  
10-cent box from any drug store will  
keep your stomach sweet; liver and  
bowels regular for months. Don't  
forget the children—their little in-  
sides need a good, gentle cleansing,  
too.—Adv.

## BADLY HURT IN FALL FROM BRIDGE

Edward Hammersten, 1609 Pine St., Picked up Unconscious at Laurel St. Shop Bridge

## RIBS AND BACK ARE INJURED

Is Supposed to Have Fallen From the Narrow, Unrailed Bridge in the Darkness

Between the hours of eight and nine o'clock Monday night Edward Hammersten, 1609 Pine street, walked or fell off the Laurel street shop bridge while on his way home. In the absence of any electric light the night was so dark one could not see ones hand before his face.

Hammersten was so badly injured that he could not get up. His back was badly strained and several ribs were broken. Another pedestrian, happening along later, heard the moans of the wounded man and got help.

He was removed to the Northern Pacific hospital, an ambulance taking him to the sanatorium.

A telephone message from the N. P. hospital at 3:15 this afternoon stated that the doctors regarded Mr. Hammersten's condition as serious.

## Brainerd Musical Club

The Musical club on Saturday was inducted to the Misses Ethel and Ruth Parker for one of the most successful programs of the year. The program as printed in Friday's Dispatch was given without change except for the paper, "Rambles in Rome," by Mrs. Cobb, which she read as an impromptu substitute for the piano number of Miss Humes who was unable to be present.

Mr. Grant Kelliher, baritone, who in St. Paul is assistant in the studios of Mrs. Frederick Snyder, the well known impresario, appeared here for the first time in recital. His program was most generous and judiciously selected, and the three groups of five songs each besides three encore numbers, were sung with such uniform excellence that the hearers would gladly have had more. Mr. Kelliher's baritone is mellow and rich in quality and there is a distinctly artistic finish to his style of singing. Added to this, his capable interpretation of song moods and correctness of tone made the recital memorably delightful. The entire list of songs, previously printed, were notably well sung but especially good work was apparent in Handel's "Umbra mai fu" with its impressive Largo; in Schumann's "Du bist Eine Blume" and Wagner's "Evening Star." Of the second group "Come Over the Sea Beloved," El-Hott, "My Heart Hath a Song," Phyllis Herbert and "Flower Rain" Schneider, deserve special commendation.

both for the beauty of the songs and the interpretative skill of the voice. With the exception of "Evening Star" Wagner, of the first group, perhaps none on the program were so notably beautiful as "Now Sleeps the Crimson Petal" Quilter, and "Mother O Mine" Tours, the latter, especially lingers in the mind as a faultless song expression of fine feeling.

It would have been too bad if by any chance Mr. Kelliher had failed to give the encore group, "Allah" by Chadwick, "The Birth of Morn" by Loosli and "Unco Rome" by Homer. Both the words and music of the "Birth of Morn" make it a poetic gem of a song with a definite "lift" in its feeling, which was delightfully expressed in Mr. Kelliher's singing. "Unco Rome" is a comparatively new dialect song with a subtle humor and pathos of sentiment that amounts to dignity that were not lost when Mr. Kelliher sang it.

Mrs. Cobb's paper was a brief review from notes taken during her own "Rambles in Rome" telling principally about the street markets, tourist shoppers, and a description of those environs of Rome made memorable to us in Hawthorne's "Marble Faun."

Miss Esther Belmuth, always pleasing in her child-character readings, gave "The Moo Cow Moo" and "Thanksgiving at Grandmas" in a very realistic manner.

R. R. Wise Designated Foreman—Preliminary Call of Calendar in the Morning

District court convened in the court house this morning with Judge F. B. Wright on the bench. Judge Wright has a new court reporter, Willis L. Wyman of Chicago, an experienced man who begins his first work in northern Minnesota.

The grand jury received its instructions and retired to its deliberations. R. R. Wise was designated as foreman. A clerk was chosen by the members of grand jury. There are 17 serving, six having been excused for various reasons. John Byrne of Port Ripley is a new bailiff serving and in charge of the grand jury.

Following this was a preliminary call of the calendar and the adding of several civil cases to the call. In the afternoon applications for citizenship were taken up.

The Dispatch of last night incorrectly stated that Judge Stanton was to preside. The petit jury is summoned for Wednesday morning.

### Harvey Stock Company

The Harvey stock company playing this week at the Brainerd opera house have more than made good their promises of Sunday evening. They came to this city as strangers and were forced by unavoidable conditions to open with a different play than had been advertised but they announced that on Monday evening Miss Wyldie, the leading lady would be back in the cast and that they would present "The Dawn of a New Tomorrow." An audience that filled the opera house were present last evening to see the company offer this sterling comedy drama. Unqualifiedly it was the best, both from an acting standpoint and scenic detail, of any stock company play seen in this city and equal to many of the higher priced one-night attractions.

The real worth of the Harvey company was seen in last evening's production and from the announcements this company has many more of the same kind of plays for use here this week. A dollar show for thirty cents is the easiest way in which to criticize this company's production of last evening's play. For this evening the semi-western bill "The Whirlpool" is announced. As the feature play of the week "A Woman of Mystery" will be offered. This is the companion play to "Madame X."

Work on 14th St. S. E.	7.40
Moving city scales	100.22
Total	\$251.22

A plumbers' license was granted Slipp-Gruenhagen Co. Alderman C. A. Lagerquist was given permission to build an addition to his brick veneered building at 322 and 324 South Sixth street. This addition is to consist of solid brick and to be 20 by 30 feet in size and one story in height.

To the city attorney was referred the request of the water and light board for the need of an ordinance governing the installation of electric service in this city. "We find," said the communication, "almost daily where individuals make attachments, thereby endangering the city's distributing apparatus, such as meters and transformers, besides endangering life and individual property. This department aims to follow the underwriters rules, as far as our work is concerned; but with no restrictions on the public it is up to the work."

work."

Alderman Fogelstrom objected on the payment of electric light bills for illuminating the West Brainerd bridge, claiming the county should pay part of the expense.

Alderman Dieckhaus reported that the current expense fund carried about \$1600 and would not be increased until the March settlement. He advised economy in all departments.

Alderman Dieckhaus suggested school house basements be used as polling places and thus save the city much expense. The matter was left in the hands of the finance committee.

Alderman Fogelstrom asked for time for his committee in which to see the county commissioners about heat for the city lockup.

City Engineer Peacock reported on drainage between First and Second avenues and Kindred and Farrar streets. He said the domestic sewer was of sufficient capacity to handle all sewerage. He also reported on the sewer in block 168 stating it was necessary to construct 820 feet in order to connect with the district sewer.

M. D. Stoner asked the council for permission to use the north side of the road bounding the south city limits to set his pole line. It was referred to the city attorney with instructions to draft a resolution covering the request.

Alderman Henning objected to the distribution of arc lights, especially as they affected the third ward. The water and light board, on motion, was ordered to hang the arc lights as ordered.

The status of the light question in Brainerd, a question of burning importance, was gone over by the council and the discussion turned some light on various phases of the difficulty. President of the Council C. B. Rowley related what was done by the special committee which went down to the Twin Cities to interview Max Toltz, the Minneapolis Steel & Machinery Co. people, the receiver and others. At the Minneapolis Steel & Machinery Co. offices the committee met Mr. Record and Mr. Gillette. They talked on the lines of having the steel and machinery company handle the light business directly. Mr. Record said he would not put a cent in the plant unless the Toltz company was gotten out of the way. Max Toltz and the receiver, Mr. Matteson, were interviewed and Toltz talked of an adequate rate for lighting. He wanted the rate raised from the present figure to what he considered was adequate compensation for current. The committee assured Mr. Toltz, said Mr. Rowley, that it would not be possible for Mr. Toltz to get a raise in the price paid him for electric current. A talk was also had with Ambrose Tighe and the receiver.

Mr. Tighe also took the position of an adequate rate. City Attorney Ryan said it would be as hard for Mr. Toltz to get a raise as it would be for Mr. Tighe to get a water franchise in Brainerd. This disgruntled Mr. Tighe and he left the conference.

Mr. Ryan, said Mr. Rowley, made a trip to the bonding company. They said they were entirely in the dark regarding the situation in Brainerd. Mr. Rowley seems to have had no intention of joking when he made this remark to the council, for the bonding company appeared to be like the city at present. Mr. Ryan expounded the local situation to them and posted them so thoroughly that they were entirely enlightened on the lighting question in the city of Brainerd.

The committee kept eyes and ears open in regard to the cost of installation of a temporary plant, as the city might wish to establish one if the contract with the National Heat, Light & Power company was annulled.

They interviewed Mr. Kyle at St. Paul, connected with the Northern Pacific railway and he said he would take up the matter with his superior on the question of leasing power from the Northern Pacific shops. They wanted the exact figures on the load carried every hour of the 24. After some figuring he came back with the answer that Brainerd could not under any considerations hook on to the Northern Pacific shop light plant.

The verbal report was accepted. Alderman Purdy, who carried a lantern to meeting, said the council should do something and not put up with the light any more.

Alderman Rowley said: "If we sue to annul the contract, they will lay down and quit furnishing light. What chance are we in to make a contract when the status of our relations with the Toltz people is unsettled."

Mr. Rowley also mentioned that a suit for annulment of the contract would in a way bar an injunction to compel Toltz to furnish light.

As an illustration this would leave the power company suspended in the shape of a man being kicked out and being restrained by a grip on the collar from refusing to furnish light.

"Then again," said one alderman, "if we put the city in darkness by annulling the contract we cut out the holiday trade of this season and cause an enormous loss to the merchants of Brainerd. No definite action was taken following the discussion."

Follett \$35; Peter Walters wood \$37.35; Mahlum Lumber Co. wood \$3.00; hydrant rental bill of water and light board \$175; electric current ornamental lamp posts \$64.87; Gregory square \$1.80; alleys and public buildings \$24.77; Central hose house \$5.23; West Brainerd bridge \$9.93.

The water and light board was given permission to install additional intakes at a cost of \$600 to \$800. Secretary Nelson's letter stated that the water in the Mississippi was very low at this time and that additional intakes were necessary from the river to the well which feeds the supply.

The payroll distribution on street work was accepted and ordered filed and is as follows:

Work on 10th St. north.....	20.60
Work on hose house and bell.....	6.60
Culvert West Brainerd.....	41.20

Cinders on 13th St.....	13.20
Work on 14th St. S. E.....	7.40
Moving city scales.....	100.22

\$251.22

A plumbers' license was granted Slipp-Gruenhagen Co. Alderman C. A. Lagerquist was given permission to build an addition to his brick veneered building at 322 and 324 South Sixth street. This addition is to consist of solid brick and to be 20 by 30 feet in size and one story in height.

To the city attorney was referred the request of the water and light board for the need of an ordinance governing the installation of electric service in this city. "We find," said the communication, "almost daily where individuals make attachments, thereby endangering the city's distribution apparatus, such as meters and transformers, besides endangering life and individual property. This department aims to follow the underwriters rules, as far as our work is concerned; but with no restrictions on the public it is uphill work."

Alderman Fogelstrom objected on the payment of electric light bills for illuminating the West Brainerd bridge, claiming the county should pay part of the expense.

Alderman Dieckhaus reported that the current expense fund carried about \$1600 and would not be increased until the March settlement. He advised economy in all departments.

Alderman Dieckhaus suggested school house basements be used as polling places and thus save the city much expense. The matter was left in the hands of the finance committee.

Alderman Fogelstrom asked for time for his committee in which to see the county commissioners about heat for the city lockup.

City Engineer Peacock reported on drainage between First and Second avenues and Kindred and Farrar streets. He said the domestic sewer was of sufficient capacity to handle all sewerage. He also reported on the sewer in block 168 stating it was necessary to construct 820 feet in order to connect with the district sewer.

M. D. Stoner asked the council for permission to use the north side of the road bounding the south city limits to set his pole line. It was referred to the city attorney with instructions to draft a resolution covering the request.

Alderman Henning objected to the distribution of arc lights, especially as they affected the third ward. The water and light board, on motion, was ordered to hang the arc lights as ordered.

The status of the light question, Brainerd, a question of burning importance, was gone over by the council and the discussion turned some light on various phases of the difficulty. President of the Council C. B. Rowley related what was done by the special committee which went down to the Twin Cities to interview Max Toltz, the Minneapolis Steel & Machinery Co. people, the receiver and others. At the Minneapolis Steel & Machinery Co. offices the committee met Mr. Record and Mr. Gillette. They talked on the lines of having the steel and machinery company handle the light business directly. Mr. Record said he would not put a cent in the plant unless the Toltz company was gotten out of the way. Max Toltz and the receiver, Mr. Matteson, were interviewed and Toltz talked of an adequate rate for lighting. He wanted the rate raised from the present figure to what he considered was adequate compensation for current. The committee assured Mr. Toltz, said Mr. Rowley, that it would not be possible for Mr. Toltz to get a raise in the price paid him for electric current. A talk was also had with Ambrose Tighe and the receiver.

Mr. Tighe also took the position of an adequate rate. City Attorney Ryan said it would be as hard for Mr. Toltz to get a raise as it would be for Mr. Tighe to get a water franchise in Brainerd. This disgruntled Mr. Tighe and he left the conference.

Mr. Ryan, said Mr. Rowley, made a trip to the bonding company. They said they were entirely in the dark regarding the situation in Brainerd. Mr. Rowley seems to have had no intention of joking when he made this remark to the council, for the bonding company appeared to be like the city at present. Mr. Ryan expounded the local situation to them and posted them so thoroughly that they were entirely enlightened on the lighting question in the city of Brainerd.

The committee kept eyes and ears open in regard to the cost of installation of a temporary plant, as the city might wish to establish one if the contract with the National Heat, Light & Power company was annulled.

They interviewed Mr. Kyle at St. Paul, connected with the Northern Pacific railway and he said he would take up the matter with his superior on the question of leasing power from the Northern Pacific shops. They wanted the exact figures on the load carried every hour of the 24. After some figuring he came back with the answer that Brainerd could not under any considerations hook on to the Northern Pacific shop light plant.

The verbal report was accepted. Alderman Purdy, who carried a lantern to meeting, said the council should do something and not put up with the light any more.

Alderman Rowley said: "If we sue to annul the contract, they will lay down and quit furnishing light. What shape are we in to make a contract when the status of our relations with the Toltz people is unsettled."

Mr. Rowley also mentioned that a suit for annulment of the contract would in a way bar an injunction to compel Toltz to furnish light.

As an illustration this would leave the power company suspended in the shape of a man being kicked out by having his contract annulled and being restrained by a grip on the collar from refusing to furnish light.

"Then again," said one alderman, "if we put the city in darkness by annulling the contract we cut out the holiday trade of this season and cause an enormous loss to the merchants of Brainerd. No definite action was taken following the discussion."

## WOMAN, 87, GETS NEW TOOTH

Milan Resident Calls Doctor, Who Is Amazed by Phenomenon.  
The Masi Torello correspondent of the Corriere della Sera, Milan, reports a strange event in the life of a countrywoman who has reached the ripe age of eighty-seven. The old woman is still strong and healthy, but not even these physical qualities led her to expect a new molar tooth to make its appearance in her mouth last year. One actually did grow, however, and a doctor was summoned to the old peasant's house. She complained of toothache, and the doctor was able to announce after a rapid examination that a second tooth was just beginning to grow.

The phenomenon is the subject of much comment, but there is at all events satisfactory medical evidence to testify that the strange report is fully warranted and accurate.

### A Dramatic Death.

A sergeant major of an infantry regiment stationed in Bremen was sentenced to a slight disciplinary punishment for having mortally wounded a man with a revolver in the course of a fight. He appealed against this, but was informed that his appeal had been rejected. He then ordered his men to load their rifles with blank cartridges, but during their absence reloaded them with ball cartridges. He then drew up his men in firing line and carefully showed them how to aim their rifles straight at his heart. With the utmost calm he then ordered, "Fire!" and fell with four bullets through his heart.—Exchange.

### Sharp Tongued Bernhardt.

Sarah Bernhardt is quoted as having paid her respects to Isabella of Bavaria, consort of Charles VI. of France, in this wise: "It is to her that we owe the invention of the corset, but it was she, too, who sold the half of France to England. There was no crime of which that woman was not capable."

### Told Her Why.

"I'd like to know why you hired a young woman for a typewriter?" demanded Mrs. Hollow of her husband. "So I could have some one to dictate to," replied the unhappy man.—New York Sun.

### The Way He Put It.

He—I have a compliment for you, dear. She—What is it? He—Mrs. Jones says you have the handsomest husband in town.—Life.

Go on and make errors and fall and get up again. Only go on!—Brackett.

### Most Famous Saying.

"What is the most famous saying ever made by man?" an editor asked. Some thought that Caesar, some thought that Socrates, some that Lincoln, some that Nelson, had said the most memorable thing, but finally the palm was awarded to Euclid, the mathematician.

Euclid went to Alexandria to teach Ptolemy Soter, the king of Egypt, mathematics. Ptolemy plodded at his problems a week or two and then asked Euclid impatiently if there was not some special, shorter way by which he could be taught.

"Sir," Euclid answered, "there is no royal road to learning."

### Drives Off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three of four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50c and \$1. Trial bottle free at H. P. Dunn's.—Adv. tts-w

### Happens Once Every 2,500,000 Years.

A remarkable freak in moon phases was noted in the month of February, 1896, a month which has gone into astronomical annals as "the month without a full moon." In that year January and March each had two full moons, but February none. A writer in a leading astronomical journal used the following language in describing it: "Do you realize what a rare thing in nature it was? It has not happened before since the beginning of the Christian era or probably since the creation of the world! It will not occur again, according to the computations of the astronomer royal of England, for—how long do you think? Not until after 2,500,000 years from 1896!"

### THE LAWS OF NATURE.

The laws of nature are just, but terrible. There is no weak mercy in them. Cause and consequence are inseparable and inevitable. The elements have no forbearance. The fire burns, the water drowns, the earth buries. And perhaps it would be well for our race if the punishment of crimes against the laws of nature were as inevitable as the punishment of crimes against the laws of men.—Longfellow.

### Famous Stage Beauties

### VIOLENCE.

Violence ever defeats its own ends. Where you cannot drive you can always persuade. A gentle word, a kind look, a good natured smile, can work wonders and accomplish miracles. There is a secret pride in every human heart that revolts at tyranny. You may order and drive an individual, but you cannot make him respect you.—Hazlitt.

### Fuller's Earth.

The cleansing properties of fuller's earth are not as well known as they should be. When grease has been split on the carpet make a paste with boiling water and equal parts of fuller's earth and magnesia, apply to the stain while hot and allow to dry. It will take out the grease entirely. To remove grease from the floor make a paste as above and cover the spots with it; when dry remove and renew if necessary. Two or three applications will destroy all traces of ugly spots.

### The Dozen.

In all the civilized countries of the world thirteen is referred to as being somebody's "dozen." In America, Australia, Great Britain (present day) and several other lands that number is said to be a "baker's dozen." In Italy it is referred to as the "cobbler's dozen," there being a tradition that there was formerly a law which compelled cobblers to put twelve tacks or nails around the edge of a boot heel. Finally, when the nails became cheap, a center nail was driven for luck.

### His Flippant Thought.

"Well, George," said witty William as they met in the street, "how is Arthur going on now?" "Oh, much better," replied George. "He has been in the country for seven days to regain his strength." "That's funny. I should have thought seven days in the country would have made one week."—London Answers.

# Write Ideas for Moving Picture Plays!

YOU Can Write Photo Plays and Earn \$25 or More Weekly

## We will Show You How

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100 and more for single scenarios, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, IMP, SOLAX, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

Perhaps we can do the same for you. If you think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure,

You will earn \$100 Monthly for spare time work

FREE Send your name and address at once for free copy of our illustrated book, "Moving Picture Playwriting"

Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean to you and your future.

## Cause of Eczema Now Explained

Eczema, Psoriasis and other skin troubles are caused by myriads of germs that work in the skin. Salves have been tried but have been proven worthless, for they only close the pores and fail to remove the real cause of the disease.

These germs can be destroyed only by washing, and unless this is promptly done, they rapidly multiply, gnawing their way deep into the sensitive tissue.

This is what causes that awful itch, and what seemed a mere rash may grow worse and develop into a loathsome and torturing skin disease with its years of misery.

Don't take any chances! Destroy the germs at the beginning of the trouble with that soothing and cleansing wash, the D.D.D. Prescription for Eczema.

H. P. Dunn, druggist.—Adv.

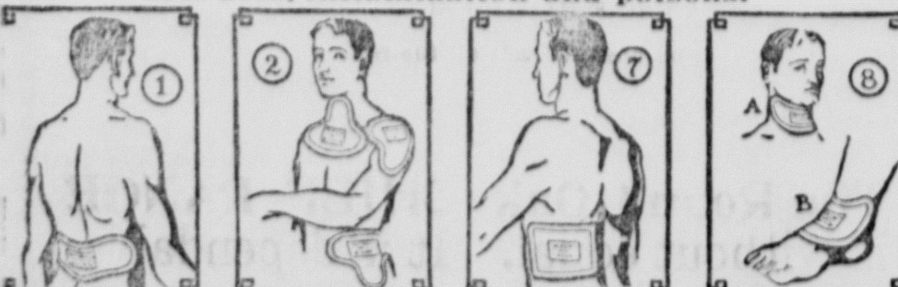

We have had experience with many remedies for skin trouble but have never seen such remarkable cures as those from D.D.D. Prescription.

We know many people have given up trying to find a cure for Eczema. They have tried most everything and seem to think there is nothing that will help them. Of course, we will not absolutely promise you that D.D.D. will cure you, but we are so sure of what D.D.D. will do for you, that we will give you the first \$1.00 bottle on our personal guarantee, that if you do not find it does the work it will not cost you a cent.

Drop in anyway and investigate the merits of this great remedy.

Wonderful Plasters

Drive Pains from All Parts of the Body  
Because they draw out and absorb uric acid, inflammation and poisons.

## Stop Your Suffering

Rheumatism, Lumbago, Cold on Chest, Kidney Trouble, Stomach Pains, Pains in back, side, hip, shoulder, knee, ankle, foot, elbow, muscles or in any part of the body must quickly yield to these plasters.

The action of these plasters is truly marvelous. They act entirely different from ordinary plasters. When you apply these plasters they start to draw out and absorb inflammation, uric acid and all poisons. Yet with all their effectiveness they contain no Belladonna or Capsicum to irritate. You could chew, as you would gum, the material used.

## WOMAN, 87, GETS NEW TOOTH

Milan Resident Calls Doctor, Who is Amazed by Phenomenon.  
The Masi Torello correspondent of the Corriere della Sera, Milan, reports a strange event in the life of a countrywoman who has reached the ripe age of eighty-seven. The old woman is still strong and healthy, but not even these physical qualities led her to expect a new molar tooth to make its appearance in her mouth last year. One actually did grow, however, and a doctor was summoned to the old peasant's house. She complained of toothache, and the doctor was able to announce after a rapid examination that a second tooth was just beginning to grow.

The phenomenon is the subject of much comment, but there is at all events satisfactory medical evidence to testify that the strange report is fully warranted and accurate.

## A Dramatic Death.

A sergeant major of an infantry regiment stationed in Bremen was sentenced to a slight disciplinary punishment for having mortally wounded a man with a revolver in the course of a fight. He appealed against this, but was informed that his appeal had been rejected. He then ordered his men to load their rifles with blank cartridges, but during their absence reloaded them with ball cartridges. He then drew up his men in firing line and carefully showed them how to aim their rifles straight at his heart. With the utmost calm he then ordered, "Fire!" and fell with four bullets through his heart.—Exchange.

## Sharp Tongued Bernhardt.

Sarah Bernhardt is quoted as having paid her respects to Isabella of Bavaria, consort of Charles VI. of France, in this wise: "It is to her that we owe the invention of the corset, but it was she, too, who sold the half of France to England. There was no crime of which that woman was not capable."

## Told Her Why.

"I'd like to know why you hired a young woman for a typewriter?" demanded Mrs. Hollow of her husband. "So I could have some one to dictate to," replied the unhappy man.—New York Sun.

## The Way He Put It.

He—I have a compliment for you, dear. She—What is it? He—Mrs. Jones says you have the handsomest husband in town.—Life.

Go on and make errors and fall and get up again. Only go on!—Brackett.

## Most Famous Saying.

"What is the most famous saying ever made by man?" an editor asked. Some thought that Caesar, some thought that Socrates, some that Lincoln, some that Nelson, had said the most memorable thing, but finally the palm was awarded to Euclid, the mathematician.

Euclid went to Alexandria to teach Ptolemy Soter, the king of Egypt, mathematics. Ptolemy plodded at his problems a week or two and then asked Euclid impatiently if there was not some special, shorter way by which he could be taught.

"Sire," Euclid answered, "there is no royal road to learning."

He—When are you going to raise my hopes? She—When they raise your salary.—Boston Transcript.

## Drives Off a Terror

The chief executioner of death in the winter and spring months is pneumonia. Its advance agents are colds and grip. In any attack by one of these maladies no time should be lost in taking the best medicine obtainable to drive it off. Countless thousands have found this to be Dr. King's New Discovery. "My husband believes it has kept him from having pneumonia three or four times," writes Mrs. George W. Place, Rawsonville, Vt., "and for coughs, colds and croup we have never found its equal." Guaranteed for all bronchial affections. Price 50c and \$1. Trial bottle free at H. P. Dunn's.—Advt. tts-w

## Happens Once Every 2,500,000 Years.

A remarkable freak in moon phases was noted in the month of February, 1866, a month which has gone into astronomical annals as "the month without a full moon." In that year January and March each had two full moons, but February none. A writer in a leading astronomical journal used the following language in describing it: "Do you realize what a rare thing in nature it was? It has not happened before since the beginning of the Christian era or probably since the creation of the world! It will not occur again, according to the computations of the astronomer royal of England, for—how long do you think? Not until after 2,500,000 years from 1866!"

## THE LAWS OF NATURE.

The laws of nature are just, but terrible. There is no weak mercy in them. Cause and consequence are inseparable and inevitable. The elements have no forbearance. The fire burns, the water drowns, the earth buries. And perhaps it would be well for our race if the punishment of crimes against the laws of nature—were man as unerring in his judgments as nature.—Longfellow.

## Famous Stage Beauties

look with horror on Skin Eruptions, Blisters, Sores or Pimples. They don't have them. For all such troubles use Bucklen's Arnica Salve. It glorifies the face. Excellent for Eczema or Salt Rheum. It cures sore lips, chapped hands, chilblains, heels, burns, cuts and bruises. Unsurpassed for piles. 25c at H. P. Dunn's.—Advt. tts-w

## VIOLENCE.

Violence ever defeats its own ends. Where you cannot drive you can always persuade. A gentle word, a kind look, a good natured smile, can work wonders and accomplish miracles. There is a secret pride in every human heart that revolts at tyranny. You may order and drive an individual, but you cannot make him respect you.—Hazlitt.

## Fuller's Earth.

The cleansing properties of fuller's earth are not as well known as they should be. When grease has been spilt on the carpet make a paste with boiling water and equal parts of fuller's earth and magnesia, apply to the stain while hot and allow to dry. It will take out the grease entirely. To remove grease from the floor make a paste as above and cover the spots with it; when dry remove and renew if necessary. Two or three applications will destroy all traces of ugly spots.

## The Dozen.

In all the civilized countries of the world thirteen is referred to as being somebody's "dozen." In America, Australia, Great Britain (present day) and several other lands that number is said to be a "baker's dozen." In Italy it is referred to as the "cobbler's dozen," there being a tradition that there was formerly a law which compelled cobblers to put twelve tacks or nails around the edge of a boot heel. Finally, when the nails became cheap, a center nail was driven for luck.

## His Flippant Thought.

"Well, George," said witty William as they met in the street, "how is Arthur going on now?"

"Oh, much better," replied George. "He has been in the country for seven days to regain his strength."

"That's funny. I should have thought seven days in the country would have made one week."—London Answers.

# Write Ideas for Moving Picture Plays!

**YOU** Can Write Photo Plays a d Ear \$25 or More Weekly

## We will Show You How

If you have ideas—if you can THINK—we will show you the secrets of this fascinating new profession. Positively no experience or literary excellence necessary. No "flowery language" is wanted.

The demand for photoplays is practically unlimited. The big film manufacturers are "moving heaven and earth" in their attempts to get enough good plots to supply the ever increasing demand. They are offering \$100 and more for single scenarios, or written ideas.

Nearly all the big film companies, the buyers of photoplays, are located in or near NEW YORK CITY. Being right on the spot, and knowing at all times just what sort of plots are wanted by the producers, our SALES DEPARTMENT has a tremendous advantage over agencies situated in distant cities.

We have received many letters from the big film manufacturers, such as VITAGRAPH, EDISON, ESSANAY, LUBIN, IMP, SOLAX, REX, RELIANCE, CHAMPION, COMET, MELIES, ETC., urging us to send photoplays to them. We want more writers and we'll gladly teach you the secrets of success.

We are selling photoplays written by people who "never before wrote a line for publication."

Perhaps we can do the same for you. If you think of only one good idea every week, and will write it out as directed by us, and it sells for only \$25, a low figure,

You will earn \$100 Monthly for spare time work

**FREE** Send your name and address at once for free copy of our illustrated book, "Moving Picture Playwriting"

Don't hesitate. Don't argue. Write NOW and learn just what this new profession may mean to you and your future.

**Up and Down? Go To Your Doctor**  
Ayer's Sarsaparilla is a tonic. It does not stimulate. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your doctor all about this. Trust him fully, and always do as he says.

## "LEAVE IT TO ME"

says the husband "to look after the coal supply." But "Lest he forget" we suggest that wives do the ordering and let the husbands pay the bill. You don't have to come here to give your order. Just phone us what kind and how much coal you require and we will do the rest.

## Cause of Eczema Now Explained

Eczema, Psoriasis and other skin troubles are caused by myriads of germs that work in the skin. Salves have been tried but have been proven worthless, for they only clog the pores and fail to remove the real cause of the disease.

These germs can be destroyed only by wash, and unless this is promptly done, they rapidly multiply, gnawing their way deep into the sensitive tissue. This is what causes that awful itch, and what seemed a mere rash may grow worse and develop into a hideous and torturing skin disease with its years of misery.

Don't take any chances! Destroy the germs at the beginning of the trouble with that soothing and cleansing wash, the D.D.D. Prescription for Eczema.

H. P. Dunn, druggist.—Advt.

We have had experience with many remedies for skin trouble but have never seen such remarkable cures as those from D.D.D. Prescription.

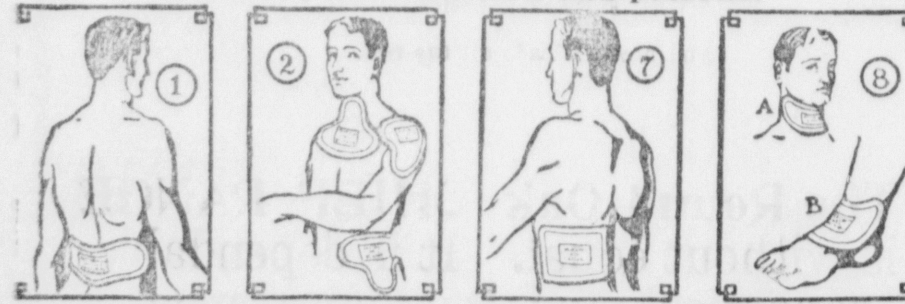

We know many people have given up trying to find a cure for Eczema. They have tried most everything and seem to think there is nothing that will help them. Of course, we will not absolutely promise you that D.D.D. will cure you, but we are so sure of what D.D.D. will do for you, that we will give you the first \$1.00 bottle on our personal guarantee that if you do not find it does the work it will not cost you a cent.

Drop in anyway and investigate the merits of this great remedy.

**Wonderful Plasters**

Drive Pains from All Parts of the Body

Because they draw out and absorb uric acid, inflammation and poisons.

## Stop Your Suffering

Rheumatism, Lumbago, Cold on Chest, Kidney Trouble, Stomach Pains, Pains in back, side, hip, shoulder, knee, ankle, foot, elbow, muscles or in any part of the body must quickly yield to these plasters.

The action of these plasters is truly marvelous. They act entirely different from ordinary plasters. When you apply these plasters they start to draw out and absorb inflammation, uric acid and all poisons. Yet with all their effectiveness they contain no Belladonna or Capsicum to irritate. You could chew, as you would gum, the material used.
